

SGM TECHNICAL

Delivering solutions to keep your vessel operating safely

With a steadily expanding footprint of strategically located offices, Sturrock Grindrod Maritime (SGM) is a leading maritime service provider in the Indian Ocean region.

SGM Technical division offers technical assistance and support in the form of marine and industrial engineering as well as the servicing of safety, survival and fire safety equipment. Our procurement team is able to assist with the sourcing of all technical equipment as well as general ship's stores and provisions.

MARINE TECHNOLOGY AND SERVICING

Perfection in safety

Offering 24-hour assistance at major ports, we strive to ensure that the safety requirements of your vessel and crew are always met.

Our internationally trained service engineers at our accredited maintenance stations are on hand to undertake the mandatory annual maintenance of your life rafts and lifeboats. Purchase and rental options are also available to keep your vessel fully compliant at all times.

In addition, SGM Marine Services can further satisfy your safety requirements with a range of firefighting equipment that includes the servicing and sale of all types of fire extinguishers, as well as a range of pyrotechnics for your vessel and life rafts. Our fire station is SANAS certified and allows us to perform high pressure testing and inspections.

We also offer calibration, servicing, diagnostics and repairs for a range of instrumentation segments. Our technical procurement team can assist with the sourcing of all technical equipment and can rely on the Group's clearing and forwarding capabilities to ensure any engineering project remains on schedule.

SGM MARINE AND INDUSTRIAL ENGINEERING

Seamless engineering where it matters most

With a reputation for service excellence, our engineering division not only offers maintenance and repair services, but has also delivered bespoke marine design, engineering and fabrication projects to leading marine clients.

With a 40-year track record in marine engineering and accredited to ISO and TRACE standards, we have developed a reputation for offering safe and reliable turnkey engineering solutions for your vessel. We offer a range of maintenance and repair services that cover your vessel from hull to engine, ensuring that it remains in Class at all times.
